**Remote Control Switches**

# Air Switch Remote Controller - ARC-4200

## DESCRIPTION

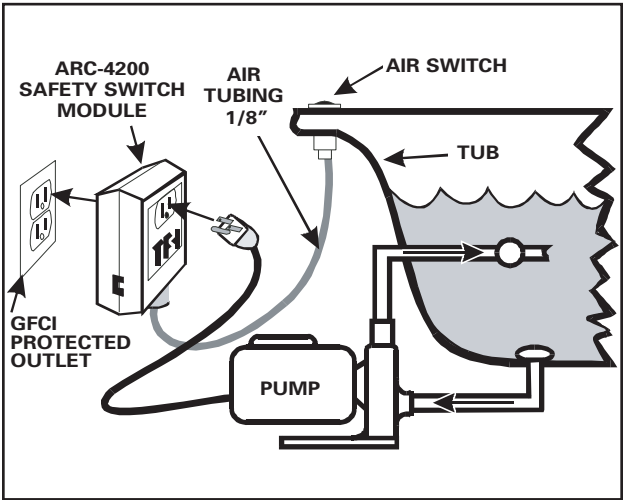

The ARC-4200 is an easily installed air actuated on/off control for any electrical device up to 1HP, 120V. Simply plug the unit into any standard electrical outlet and plug the appliance into the receptacle provided in the ARC-4200 module. The appliance can be activated and deactivated by depressing an air button mounted up to fifteen feet away.

## Typical Installations

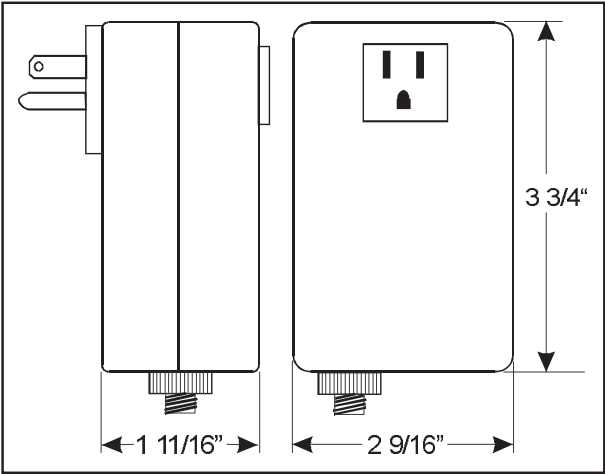

### DISPOSER APPLICATION (plug-in)

- Eliminates need for an electrical wall switch.
- Simplifies first time food waste disposer installations.
- Operates on 120V household wall receptacle.

### JET TUB APPLICATION (plug-in)

## Dimensions

Due to continued product improvement, system configurations and specifications may change without notice.
